READY to WEAR - sizing is specific to each style

Sizing Instructions

- Please carefully read sizing directions and information.
- Standard measurements needed for Dornink Show Choir dresses are bust, waist, hips & height.
- Garments should always be ordered to fit the biggest body measurement. Some alterations are to be expected. Dornink sizes may be different than standard retail sizes. Please contact Dornink with any specific questions.
- The size ordered can vary slightly in different styles. Ordering a sample is the best method for determining fit in each style. We give a 2" range for measurements in spandex as garments will stretch. Garments should fit closely while still allowing room to move arms and legs. Stretching some fabrics too much may cause foil, glitter or seams to become damaged or give way. Please contact us with any questions regarding measurements, length and sizing. Dornink is not responsible for variation in size due to style or fabric.
- For non-spandex dresses and skirts, ½-1" of ease is built into every dress. Ordering a sample is the best way to determine fit.
- Orders are placed into production only when completed sizing information, order confirmation and deposit are received

how to measure

1. Bust: measure the FULLEST part of bust
2. Waist: measure around waist at navel
3. Hip: measure around FULLEST part of hip
4. Height: measure head to foot
